Alfa Laval is today a world leader within the key technology areas of heat transfer, separation and fluid handling. Our company was founded on a single brilliant invention and innovation remains at the heart of everything we do.

Alfa Laval's worldwide organization helps customers in nearly 100 countries to optimize their processes. We have 42 major production units (15 in Europe, 8 in Asia, 4 in the US and 1 in Latin America).

The company has over 18 000 employees, the majority of whom are located in Sweden, Denmark, India, China, the US and France.

Our corporate mission: Over the years, Alfa Laval has been recognized as a supplier of high-quality products. This is still valid, but we also provide value for our customers. This value is summarized in our mission: To optimize the performance of our customers' processes. Time and time again. This means that we are a customer-focused company that supplies products and solutions that help our customers become more productive and competitive. We define the challenges faced by our customers and offer them solutions that respond to their true needs.
